

# **Review under WSCUC Standards and Compliance with Federal Requirements**

#### Purpose of the Worksheet

This worksheet is designed to assist planning groups preparing for a WASC Senior College and University Commission (WSCUC) review to undertake a preliminary, systematic institutional self-analysis under the WSCUC Standards by identifying strengths and areas of good practice as well as areas that may need attention. Institutions will also use this worksheet to identify, and insert references to, key supporting documentation to support its judgments. Teams will follow these references to verify the completeness of the information. After being used to stimulate discussion and to help focus the review, the completed worksheet will then be submitted with the self-study for evaluation as evidence for Component 2 of the Institutional Report at the time of the Offsite Review, with follow up as needed at the time of the Accreditation Visit. The submission of this worksheet with the institution's self study helps to validate that the institution has been reviewed under all Standards and relevant Criteria for Review.

#### The WSCUC Standards, CFRs, and Guidelines

The WSCUC Standards guide institutions in self-review, provide a framework for institutional submissions, and serve as the basis for judgments by evaluation teams and the Commission. Each Standard is set forth in broad holistic terms that are applicable to all institutions. Under each of the four Standards are two or more major categories that make the application of the Standard more specific. Under each of these categories are Criteria for Review (CFRs), which identify and define specific applications of the Standard. Guidelines, provided for some but not all CFRs, identify typical or common forms or methods for demonstrating performance related to the CFR; institutions, however, may provide alternative demonstrations of compliance. This worksheet contains all the CFRs and Guidelines from the 2013 *Handbook of Accreditation*. An "X" in the cell indicates a cross-reference to other CFRs that touch on related issues.

#### Using this Worksheet

The worksheet is used during the early stages of planning for the Institutional Report and may be revisited later when preparing for further reviews. For each CFR, institutions are asked to give themselves a rating indicating how well they are doing, to identify the importance of addressing the CFR as an aspect of the review, and to provide comments as appropriate, about their self-assessment. Key areas may thereby be identified where more evidence is needed or more development required. Institutions may have members of the planning group complete the worksheet individually with responses reviewed by the group as a whole. Or an institution may divide the worksheet by Standards with different groups completing each standard. Use these or other approaches to complete the worksheet.

Once the institution has completed this self-review process, priorities that are identified using this form should be integrated with the institution's context, goals, and planning in the development of its report. Summary questions are provided in the worksheet as a means of assisting institutions in determining areas of greatest concern or areas of good practice to be addressed or highlighted in institutional reports. Please include the summary sheets with the submission of this worksheet.

#### **Compliance with Federal Requirements**

In addition to the Review, there are four checklists that team members will complete during the Accreditation Visit and attach to their team report in order to ensure that the institution is in compliance with the federal requirements cited in the checklists. The institution is expected to provide the links to the needed information in anticipation of the team's review at the time of the visit.

### Standard 1. Defining Institutional Purposes and Ensuring Educational Objectives The institution defines its purposes and establishes educational objectives aligned with those purposes. The institution has a clear and explicit sense of its essential values and

character, its distinctive elements, its place in both the higher education community and society, and its contribution to the public good. It functions with integrity, transparency, and autonomy.

# **Standard 2: Achieving Educational Objectives Through Core Functions**

The institution achieves its purposes and attains its educational objectives at the institutional and program level through the core functions of teaching and learning, scholarship and creative activity, and support for student learning and success. The institution demonstrates that these core functions are performed effectively by evaluating valid and reliable evidence of learning and by supporting the success of every student.

| <ul> <li>2.2a Baccalaureate programs engage students in an integrated course of study of sufficient breadth and depth to prepare them for work, citizenship, and lifelong learning. These programs ensure the development of core competencies including, but not limited to, written and oral communication, quantitative reasoning, information literacy, and critical thinking. In addition, baccalaureate programs actively foster creativity, innovation, an appreciation for diversity, ethical and civic responsibility, civic engagement, and the ability to work with others. Baccalaureate programs also ensure breadth for all students in cultural and aesthetic, social and political, and scientific and technical knowledge expected of educated persons. ### Standard 4. Creating an Organization Committed to Quality Assurance, Institutional Learning, and Improvement

The institution engages in sustained, evidence-based, and participatory self-reflection about how effectively it is accomplishing its purposes and achieving its educational objectives. The institution considers the changing environment of higher education in envisioning its future. These activities inform both institutional planning and systematic evaluations of educational effectiveness. The results of institutional inquiry, research, and data collection are used to establish priorities, to plan, and to improve quality and effectiveness.

# FEDERAL COMPLIANCE CHECKLISTS

## **OVERVIEW**

There are four checklists that WSCUC uses to address institutional compliance with some of the federal requirements affecting institutions and accrediting agencies:

- 1 Credit Hour and Program Length Review Checklist
- 2 Marketing and Recruitment Review Checklist
- 3 Student Complaints Checklist
- 4 Transfer Credit Policy Checklist

Teams complete these four checklists and add them as appendices to the team report. They are included here in order for the institution to be prepared to provide the necessary information for the team. Teams are not required to include a narrative about any of these matters in the team report but may include recommendations, as appropriate, in the Findings, Commendations, and Recommendations section of the team report.

## **1 - CREDIT HOUR AND PROGRAM LENGTH REVIEW CHECKLIST**

Under the federal requirements referenced below, WSCUC is required to demonstrate that it monitors the institution's credit hour policy and processes as well as the lengths of its programs.

### Credit Hour - §602.24(f)

The accrediting agency, as part of its review of an institution for renewal of accreditation, must conduct an effective review and evaluation of the reliability and accuracy of the institution's assignment of credit hours.

(1) The accrediting agency meets this requirement if-

(i) It reviews the institution's-

(A) Policies and procedures for determining the credit hours, as defined in 34 CFR 600.2, that the institution awards for courses and programs; and

(B) The application of the institution's policies and procedures to its programs and coursework; and

- (ii) Makes a reasonable determination of whether the institution's assignment of credit hours conforms to commonly accepted practice in higher education.
- (2) In reviewing and evaluating an institution's policies and procedures for determining credit hour assignments, an accrediting agency may use sampling or other methods in the evaluation.

### Credit hour is defined by the Department of Education as follows:

A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than—

(1) One hour of classroom or direct faculty instruction and a minimum of two hours of out of class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time; or

(2) At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the institution including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

See also WSCUC Senior College and University Commission's Credit Hour Policy.

### Program Length - §602.16(a)(1)(viii)

Program length may be seen as one of several measures of quality and as a proxy measure for scope of the objectives of degrees or credentials offered. Traditionally offered degree programs are generally approximately 120 semester credit hours for a bachelor's degree, and 30 semester credit hours for a master's degree; there is greater variation at the doctoral level depending on the type of program. For programs offered in non-traditional formats, for which program length is not a relevant and/or reliable quality measure, reviewers should ensure that available information clearly defines desired program outcomes and graduation requirements, that institutions are ensuring that program outcomes are achieved, and that there is a reasonable correlation between the scope of these outcomes and requirements and those typically found in traditionally offered degrees or programs tied to program length.

\*\*Section 487 (a)(20) of the Higher Education Act (HEA) prohibits Title IV eligible institutions from providing incentive compensation to employees or third party entities for their success in securing student enrollments. Incentive compensation includes commissions, bonus payments, merit salary adjustments, and promotion decisions based solely on success in enrolling students. These requirements do not apply to the recruitment of international students residing in foreign countries who are not eligible to receive Federal financial aid.
