Bilingual Authorization Program Transition Plan

The transition plan provides demonstration that each Commission approved Bilingual Authorization program understands the expectations embodied in the updated standards and performance expectations and has/is taking the steps to align the program with the new standards by the effective date of **July 1, 2023**. Further, it requires that each program consult with appropriate personnel within its own educational organization to ensure a successful transition and alignment with the standards. Finally, the transition plan allows the Commission to ensure that appropriate technical assistance is provided to assist programs in transitioning. It is expected that this document is submitted only after important conversations and planning have been done by institutional personnel about how the program will transition to the new standards. For more information about the new standards, see [PSA 22-06](#).
